Think of a flower. You'll find flowers across all of life's pivotal moments. From birth to death, love to heart-break, and simply because their beauty inspires. Flowers are a reminder of the impermanence of life. Here today, gone tomorrow. Their lifecycle from seed germinating in the darkness to graceful ballerinas dancing in their beauty to tender decay. There is beauty in all stages. This photo/mixed media series celebrates that beauty, and the joy and grief that comes with it. Michelle Nagri has been photographing and painting since 2010 as a way to find her voice. [www.mnagriphoto.com](http://www.mnagriphoto.com)

### 6. The Hippodrome Theater Art Gallery: 25 Se 2nd Pl/352-375-4477

Hippodrome's Art Gallery is thrilled to present a remarkable exhibition featuring the works of Florida-based painter, Josiah Lloyd. Lloyd's exhibition will only be showcasing paintings. Lloyd has spent several years cultivating a powerful body of work that draws inspiration from different art practices. His artistic evolution into painting has been a journey marked by a keen focus on detail, a fusion of mediums, and a commitment to abstraction. Lloyd's paintings invite viewers to engage in the act of seeing through the lens of memory. He deliberately withholds visual information, prompting each viewer to interpret the artwork through their personal experiences. The meticulous placement of layers of tape throughout the painting, lifted later to reveal earlier marks, adds a temporal dimension, conveying a sense of time within the artwork.
